MOHAMED MASSOUS

Cybersecurity Engineering Student

Tunisia | mohamed.massous@proton.me | +216 25 196 416
LinkedIn | GitHub | TryHackMe

PROFESSIONAL PROFILE

Cybersecurity engineering student with hands-on experience in network security and defensive operations. Top 6,379 globally on TryHackMe with 292+ completed labs. Seeking cybersecurity or SOC analyst internship to apply skills in threat detection and incident response.

EDUCATION

Cybersecurity Engineering Program
TEK-UP University, Tunisia | September 2025 – Present

Bachelor's Degree in Business Intelligence
ISIGK Institute, Tunisia | September 2022 – June 2025
- Data analysis using SQL, Power BI, Excel | Python and Java programming

CYBERSECURITY EXPERIENCE

TryHackMe Platform – Active Security Practitioner
Global Rank: 6,379 | 292+ Completed Labs
- Network enumeration and vulnerability scanning using Nmap, Linux security fundamentals
- SOC Level 1 fundamentals: log analysis, alert triage, and incident investigation
- Web security principles and OWASP Top 10 vulnerability identification

TECHNICAL SKILLS

Security & Networking:	TCP/IP, DNS, HTTP/HTTPS, Linux security, threat analysis, vulnerability assessment, incident response, log analysis
Security Tools:	Nmap, Wireshark, Burp Suite, Metasploit, Linux command line tools
Programming & Data:	Python, SQL, Bash scripting, Git/GitHub, Power BI, Excel
Frameworks:	OWASP Top 10, SOC operations, MITRE ATT&CK concepts

PROJECTS

AI-Powered Travel Planning Mobile Application
Flutter Developer | February 2025 – June 2025
- Developed cross-platform mobile application with secure authentication and encrypted data storage

ProstSMM – Digital Platform
Founder & Developer | November 2021 – Present
- Built web-based platform with security best practices and performance monitoring
